---

### **Summary**

Enthusiastic full-stack developer with 2+ years of experience creating user-friendly web applications. Committed problem solver and team player, eager to contribute to a dynamic environment and embrace modern technologies.

### **Area of Experience**

React.js, Node.js, TypeScript, JavaScript, npm, ESLint, Bootstrap, jQuery, CSS, Sass, Git, GitHub, GitLab, Figma, MySQL, MS SQL, MongoDB, Docker, Linux, DevOps, Agile Scrum methodology, ASP.NET, C#, CircleCI, CI/CD, Tailwind CSS, REST APIs, AWS S3.

### **Skills**

- **Created efficient and user-friendly applications:**

Created a job-seeking system using Bootstrap and JavaScript, featuring responsive pages and empowering users to conveniently preserve their progress before finalizing the job application. Implemented an issue tracker system, developed REST APIs using .NET and C# to streamline operations, thereby eliminating manual paperwork. Resulted in a significant improvement in issue resolution efficiency.

Collaborated within a Scrum framework, participating in regular meetings for efficient team communication and coordination.

- **Self-Study in Software Development:**

Applied React, Redux, and Styled-Components to develop a [Spotify clone](#), incorporating user authentication, a responsive music player, and playlist management.

Developed a full-stack [social media](#) application utilizing React, Node.js, MySQL, and Sass. Implemented features like dark mode, user authentication (JWT, cookies), and efficient data management with React Query.

### **Work Experience**

#### **Full-Stack Developer, Iran Fara Bourse (IFB), Tehran (12/2018 - 08/2022)**

Responsible for developing and implementing applications and collaborations with the design department to create user-friendly web applications.

Upgrade the outdated system, resulting in enhanced user satisfaction through an improved viewing experience.

#### **Freelance Full-Stack Developer (08/2022 -Present)**

Actively engaged in self-directed learning to gain more experience in modern frameworks like React, Redux, MongoDB, Tailwind, and Next.js. Expanded skills to include AWS S3 and TypeScript. Flexible and collaborative, with an approach to exploring diverse frameworks, including Angular and others.

### **CERTIFICATES**

- DevOps Training Program (09/2023 - 10/2023)
- Redux Training Program (10/2023-11/2023)

## **LANGUAGES**

**English:** Full Professional Proficiency

**Swedish:** Limited working proficiency

**Persian:** Native or Bilingual Proficiency

## **Education**

Master of Science, Information Technology

Bachelor of Science, Computer Science
